CORPS CASE NO.: SWT-2011-00656

Mr. Dale Williams  
Oklahoma Aeronautics Commission  
120 North Robinson Avenue, Suite 1244W  
Oklahoma City, OK 73102

Dear Mr. Williams:

Please reference your correspondence of August 10, 2011, regarding the above listed project.

The provided information does not indicate that a placement of dredged or fill material will be required, permanently or temporarily, into any "waters of the United States," including jurisdictional wetlands. Therefore, your proposal is not subject to regulation pursuant to Section 404 of the Clean Water Act (CWA), and a Department of the Army (DA) permit will not be required. Should your method of construction necessitate such a discharge into an aquatic area or tributary stream, we suggest that you resubmit that portion of your project so that we may determine whether an individual DA permit will be required.

Although Section 404 CWA authorization is not required, this does not preclude the possibility that a real estate interest or other Federal, State, or local permits may be required.

If you have any questions or if further assistance is desired, contact the Corps POC listed above. Please refer to the case number listed above during any future correspondence.

Sincerely,

*Karla Roberts*
